

Give every action a history.

Follow the connections between objects, materials and the people who know something you do not.

Make something from the wreck

The implemented World Graph Phase 1 connects car salvage to conserved materials and graph-defined crafting.

Bring the right people

Phase 1 includes a mystery and a four-account Crew operation. The separate Coordination pilots explore independent evidence and deliberate sharing.

Understand what is available

Try the browser simulation first. It changes no live inventory and makes each system's release status explicit.

World Graph Phase 1 implemented. Phase 2A in development. Coordination pilots default off. NFT export not live.
